

## Attachments for Hyundai Forklifts

Ever since the year 1985, Hyundai Heavy Industries continues to be providing and making numerous forms of construction equipment including: skid steer loaders, forklift trucks, wheel loaders and excavators. The heavy industry division operates a very efficient product-supply system. This system is driven by zero-tolerance policy, perfect quality control and amongst the most advanced automatic production lines.

Construction equipment has been released to emerging markets along with South and Central America, Africa, the Middle East and Russia. Intense sales are being initiated by a group of 477 distributors in 110 nations. Local Hyundai subsidiaries have been developed within the United States, India, China and Europe.

The Construction Equipment Division within Hyundai Heavy Industries tries to fulfill and go beyond all of their customer's expectations by way of building reliable and efficient equipment and offering outstanding after sales assistance. Customer support is further sustained by their dedication to provide service parts in a timely manner so as to reduce all their buyer's "downtime." Hyundai also welcomes buyer feedback to be able to project their clients' needs and market requirements onto product development, production and sales policies. Hyundai easily competes with the different top brands in the industry.

Hyundai Heavy Industries actually appreciates all of their customers and is very committed to improving all of their products and assistance even further. All of the firm's managers and workers strive to maintain this reality with the greatest commitment in their products and assistance. One of their foremost ambitions is to help make their clients' venture even more successful.
