

Attachments for Lull Telehandlers

Telehandlers by Lull have been providing load placement precision ever since the year 1959. The Lull telehandler can help make the work easier and faster, whether the work entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are available with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull can provide 80 inches of boom travel for precision placement capabilities. There are even various optional Lull accessories for their telehandlers to help do any task.
