

Attachments for TCM Forklifts

Forklift trucks are an important player in the material handling field of every global industry. Transporting industrial goods occurs each day on our busy planet. Initially innovated as industrial vehicles in the 1930s in the United States, lift trucks gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread globally.

In 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the company is simply called TCM Corporation. Over the years, TCM forklifts have become a worldwide leader in forklift manufacturing and have built a solid reputation with the business. TCM started building lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With more than 50 years of accumulated technology and expertise, TCM has been proudly making several models of industrial trucks, making their models recognizable all over the world. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling company.
