

## Attachments for Clark Forklifts

Presently, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 in use in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with components covering more than 120,000 particular parts for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very amazing intercontinental support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for each and every one of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has preferred the very economical and beneficial structure of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most successful method of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering agenda combines modern product improvement and offers improved client support and service within the industry.
